

DATA SHEET

Polycom® RealPresence® CloudAXIS™ Suite

The Polycom® RealPresence® CloudAXIS™ Suite is a first-of-its-kind, video collaboration software solution that brings contacts from all your presence-based applications into a global directory. It is an innovative extension of the Polycom® RealPresence® Platform designed for private and public cloud deployments. Available in enterprise and service provider editions, it helps enable universal access to enterprise-grade video collaboration to any business (B2B) or consumer (B2C) at the highest quality, reliability, and security.

Polycom® RealPresence® CloudAXIS™ Suite lets you easily add anyone on Skype, Facebook, Google Talk and other business video applications to your video conferences from their browser. RealPresence CloudAXIS suite of software securely extends enterprise-grade video and content communications outside your firewall to truly create universal video collaboration.

- Intuitive browser-based user interface
- Global Directory supports Skype, Facebook, Google Talk and other UC application contacts
- Drag and drop participants into a meeting
- Automatically send meeting invites using IM or email
- Share content with all participants

RealPresence CloudAXIS Suite delivers an intuitive web user interface that makes it easier for you to safely and securely connect with anyone outside your organization and firewall. As the host, you easily drag and drop all actively online participants into your videoconference from the collected presence information in your global directory. Once you start the call, your invited participants receive a hyperlink in their chat window of their social or video application and, in one click, are immediately placed into your Polycom enterprise-grade video collaboration session through their browser.

The RealPresence CloudAXIS Suite is ideal for Polycom partners and service providers to expand from offering Video-as-a-Service (VaaS) to Video Collaboration-as-a-Service (VCaaS) creating greater customer value and new revenue streams. RealPresence CloudAXIS Suite is also for large enterprises with the RealPresence Platform to create private enterprise clouds to extend video collaboration to other businesses and consumers while achieving strategic advantages.

For more information, please visit Polycom at www.polycom.com or contact your Polycom representative.

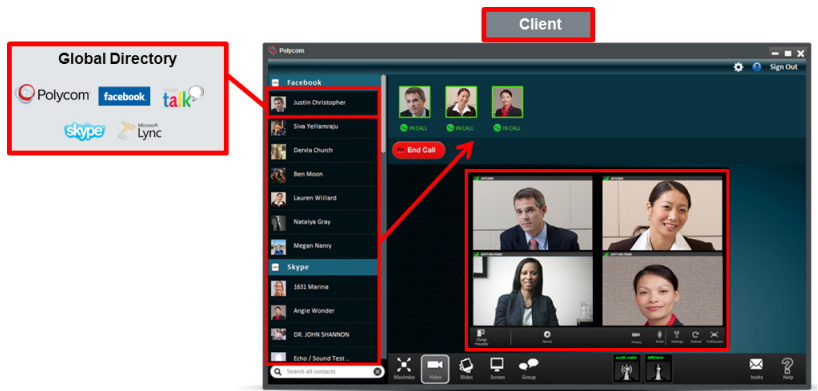

Key Benefits

- Access to billions of B2B and B2C users regardless of device, protocol, service
- Single global presence directory supporting Skype, Facebook, Google Talk and other UC applications
- Invite anyone, anywhere to join your video call via a browser with consistent high quality and security
- Easily collaborate with mobile, desktop and room systems

Host View

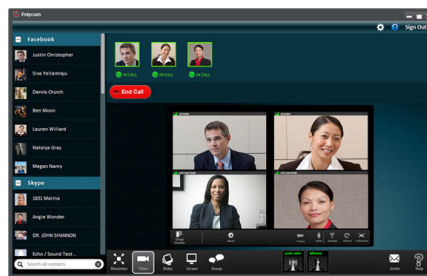

The Global Directory brings contacts from all your presence-based apps together in one window allowing you to search for contacts and see presence across all of them simultaneously.

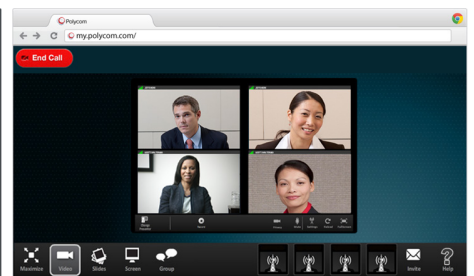

Collaboration Views

All participants enjoy the same enterprise-grade video collaboration experience. And, icons across the bottom of the client windows allow the user to expand the window, engage in an IM chat, and share content.

Host View

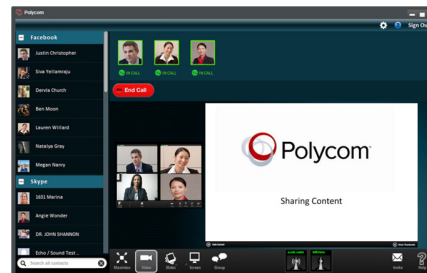

Participant View

Content Sharing Views

Content sharing is just a click away, and can be initiated by the host or any participant, delivered in its native resolution up to HD resolutions for optimal viewing.
